

April 30, 2024 – 24 Years

Dear Supporters:

April 30th marks the 24th Anniversary of the *No Parole Peltier Association's* efforts to ensure that Leonard Peltier continues to serve his consecutive life sentences, plus seven consecutive years for an armed escape, in the brutal and senseless murder of two already wounded and defenseless human beings: Two FBI Agents killed in the Line-of-Duty.

The mission of the NPPA, as it has been from the beginning, is to honor the memory and sacrifice of Special Agents Jack Coler and Ron Williams. They will never be forgotten.

Although there was some activity earlier in 2023, <https://www.noparolepeltier.com-justice.blogspot.com>, things have been quiet on the Peltier front since the October 6, 2023 letter from thirty U.S. legislators and three U.S. Senators who are collectively ignorant and uninformed about the facts supporting Peltier's conviction. They, like Peltier sycophants, and attorney rely on emotion, myth and folklore instead of understanding the facts and Peltier's appellate history. <https://www.noparolepeltier.com-justice.blogspot.com/2023/10/>

Peltier is in his fiftieth year of incarceration and the fundamental question is whether he has served enough time for his psychopathic and brutal criminal act. The answer was, and remains, he has not.

"In the Spirit of Coler and Williams"

Ed Woods

A painful reminder of June 26, 1975, Pine Ridge Reservation, South Dakota

A recap of 2023:

Another year has passed and the mission of honoring the sacrifice of Special Agents' Jack R. Coler and Ronald A. Williams, brutally murdered in the Line of Duty, remains as steadfast as ever. That commitment began on April 3, 2000 with a coincidental and casual meeting with Jack Coler's youngest son, who was but one and a half when his father was murdered. Twenty-seven days later, Peltier's decades of lies and fabrications were challenged in the public forum.

<http://www.noparolepeltier.com/pine.html>

Over the past couple of years Peltier's hopes of a commutation have risen, believing that the current administration and some additional support will overcome the decades of what has been the relatively successful myth founded on a mountain of fabrications and lies.

Among more recent supporters is former South Dakota, United States Attorney, James H. Reynolds. Reynolds' public statements concerning his involvement in the Peltier case, based on the actual record, are simply unsupportable. Reynolds' motivation is unclear other than perhaps he actually believes his involvement is provable. See the following NPPA Blogs to completely discredit Reynolds' fabricated claims: [1/5/17](#), [12/2/17](#), [1/1/18](#), [1/26/11](#), [1/20/22](#), [2/7/22](#).

Peltier's most recent *pro bono* attorney, former federal judge, Kevin H. Sharp, is simply repeating tired and discredited claims that have failed all of Peltier's prior attorneys. Sharp is a shameless propagandist for his unrepentant, double-murder client. See the following NPPA blogs that not only discredit his public claims but exposes his brazen defamation of prior Peltier-related judges and attorneys. Sharp believes he is smarter than the rest but the proof lies elsewhere. NPPA blogs discredit Sharp's shallow efforts; [1/31/22](#), [2/22/22](#), [2/2/22](#), [8/14/22](#), [10/7/22](#), [11/26/22](#), [3/11/23](#), [3/24/23](#), [3/31/23](#)
